Phone: 978-740-1171

Teacher's Name

Tracey Pantapas

Classes Offered

Fundamentals of Algebra,
Fundamentals of Geometry, MCAS
Math, and Money Matters

Offerings in mathematics at Salem Prep High School aim at making each student as mathematically literate as they can be. At the end of four years in high school it is expected that students will learn how to: problem solve; reason concretely, abstractly, and logically; value mathematics; and use mathematics in everyday life.

Salem Prep High School also makes considerable accommodation and curriculum modification consistent with students' IEPs.

MATHEMATICS GUIDELINES:

1. Beginning with the class of 2016, students must pass 4 credits of mathematics, including a math class during their senior year.
2. Students with Math MCAS scores between 220 and 239 are required to take a fourth year of math.
