

Science Department

Contact: Nancy Fling-Digiammarino

Phone: 978-740-1171

Teacher's Name

Nancy Fling-Digiammarino

Jeremy Vagos

Classes Offered

Biology, Forensic Science
Biology MCAS Review

Earth Science,
Environmental Science &
Marine Science

The Science Department offers students a core of science courses including Biology, Earth Science, as well as a rich variety of electives such as Environmental Science, Marine Science, and Forensic Science. Biology MCAS prep class is available for students who demonstrate the need for additional study of biology concepts. It is recommended that a fourth year of science be taken for those students interested in pursuing a career in any of the science related fields. Students should discuss their sequence choices with their guidance counselor, science teacher, and parents.

Science Graduation Requirements:

- Students are required to pass a minimum of three (3) units of science.
- Students are also required to take and pass an MCAS Science exam- students take freshman Biology and then the MCAS Biology Exam in June of their freshman year.

Grade	Science Courses
9	Biology
10	Earth Science, Environmental Science, Marine Science, Biology MCAS Review
11	All the previous classes
12	Forensic Science
